

Suggested ages: 3-5

As you look through this book, you will think of many ways to share it with your preschooler.

Here are a few ideas to get you started.

- Take turns opening this book to any page and playing the "I spy" game. You say "I spy (any object on the page)." Your child points to and says the name of the object. Then **he** says "I spy," and **you** respond. (You can make up your own rules to this game!)
- Sometimes, run your finger under the printed word as you or she says it, helping her connect the written word with the spoken word.
- Talk with your child about how the objects on each page are related.
- Look at the final 2 pages of colors and shapes. Help your child look back through the book to find other objects with these colors and shapes.
